What is wilderness?

Not touched by humans

Eco-systems

Cities establish a policy to regenerate wilderness

Re-wilding North America

Children do not experience wilderness

Wilderness buried in ... can it get too small?

Fear of the wild...

Earth digesting us...

Homes as places to sleep, outside to live

Mendocino forest trip-felt renewed to go there

Please save the wilderness...

Wilderness is a myth.. it does not exist

Prefer the word "nature" ... Native American... home

Why historically afraid of wilderness, threats, of animals like bears...

Deep ecology...criticism: nature more important than human rights

Conscious... Creative.. mold nature to what it should be

Students living/service learning

Awareness of cycle

More growth of food as vehicle to be close to nature-changing permaculture

"Transformation" Healing... Sacredness

Daily Acts [Program in Sonoma County to promote home edible gardens]

Environmental Justice

Wilderness Deprivation

National Parks

Devolution v. Evolution
