* If a student passes more than one AP exam in calculus or computer science, only one examination may be applied to the baccalaureate

** Envr Sci AP Tests prior to Fall 09 may apply to either B1+B3 or B2+B3 of GE Breadth. Fall of 09 or later, those credits may only apply to B1+B3.

*** Does not meet state and local government requirement, but does fulfill the Constitution portion of the Statutory Requirement (US3). May take (SSU) POLS 151 to meet US3.

If a student passes more than one AP exam in physics, only 6 units of credit may be applied to the baccalaureate, and only four units of credit may be applied to a certification in GE Breadth.

If a student passes more than one CLEP test in the same language other than English (e.g., two exams in French), then only one exam may be applied to the baccalaureate. For each test in a language other than English, a passing score of 50 is considered "Level I" and earns six units of credit; the higher score listed for each test is considered "Level II" and earns additional units of credit and placement in Area C2.
