1. EOP Program: Overview of the program, students, goals, outcomes: Bruce Peterson

   a. Faculty are noting (particularly in some of the larger classes and those with on-line components) student issues with either poor attendance, poor study skills, poor reading, etc. What do we know about student development and behavior to help us improve outcomes for students? What might we do to provide insights, professional development, etc. to help faculty work through these issues with students?

3. Follow-up on Spring Student Survey (possibly focused on Advising): Are we going to do a survey? Who will be involved? Setting timelines?

4. Other
