COUN 596  CLINICAL CONSULTATION SEMINAR (1-2)
This seminar will provide a group discussion and supervision format in conjunction
with the Pre-M.A. Field Experience/Traineeship. This seminar’s weekly small
meetings (max of 8 students) are designed to provide campus-based consultation
surrounding the Pre-M.A. clinical Traineeship, using case presentation and group
discussion. A key aim of the seminar is the development of a model of professional
functioning through the integration of theoretical, practice and personal mate-
rial. Integral to this experience is the exchange of feedback and support among
group members. The course is designed to provide an opportunity for continuing
evaluation of student growth and counseling efficacy. This component will include
evaluation from faculty and site-supervisors, as well as student’s ongoing self-as-
sessment. This course is designed to meet California Board of Behavioral Science
requirements that allow Pre-M.A. Trainees to earn hours toward MFT licensure.

COUN 585  SPECIAL STUDIES (1-4)
A didactic course designed to provide a broad conceptual base regarding major
dimensions of dependence upon drugs/alcohol. Emphasis is on practical issues
from the standpoint of the family and the community. The course explores histori-
cal and current modes of treatment, intervention, and prevention of alcoholism
and alcohol-related problems. Students are expected to have a basic understand-
ing of psychopathology and family systems prior to enrollment. This course is de-
signed to provide specific instruction in alcoholism and other chemical substance
dependency, and is designed to meet the requirements issued by the Board of
Behavioral Sciences, State of California.

COUN 583  SUBSTANCE ABUSE AND DEPENDENCE (2)
A didactic course designed to provide a broad conceptual base regarding major
dimensions of alcohol and drug abuse and dependence disorders. The course ex-
ploring theories of addiction; co-occurring disorders; and medical aspects, effects,
and approaches to prevention, assessment, and treatment of alcohol and drug
abuse/dependence disorders. The contextual role of the family and larger systems,
including the legal system, are addressed. Risk factors, community resources,
referral, and prevention information is discussed from developmental and cross-
cultural perspectives.

COUN 582  PSYCHOPHARMACOLOGY FOR COUNSELORS (3)
This didactic course explores basic principles and applications of psychopharma-
cology in the mental health field. Emphasis is paid to neurotransmitter systems
in the nervous system, principles of drug action, and clinical pharmacology (the
use of medications to treat behavioral, psychological, and psychiatric conditions
such as eating disorders, depressive disorders, hyperactivity, anxiety disorders,
psychotic disorders, and dementia). Attention will be paid to the community
counselor’s role in the effective, multiculturally-competent, and ethical use of
psychoactive medications (e.g., referral, consultation, monitoring) when psycho-
pharmacological interventions are part of treatment as well as to the historical
and sociopolitical contextual issues surrounding the prescription of psychiatric
medication.
