

Interested in taking prerequisites for the Credential Programs?

Applicants interested in starting the Multiple or Single Subject Credential programs must have prerequisites met before being admitted to the program. We encourage you to apply to SSU via CSUMentor as a graduate student to take care of them and then apply for the program of your choice. Please do the following:

1. Apply to Sonoma State University as a ***graduate student*** via www.csumentor.edu
2. Mention that you are interested in taking pre-requisite courses for the credential program on the Statement of Purpose on the application.
3. Send “OFFICIAL” transcripts from every institution you mention on your application to Admissions and Records to complete the application process.

If you have any questions about this process, please contact the Credentials Office at 707-664-2832 or credentials.office@sonoma.edu
