## Spring 2008 Saturday Field Workshops

**April 12 Master Naturalist Workshop: Biology of Flowers with Ron Robertson**  
10:30AM–2:30PM Join an expert naturalist for an exploration of some of the ways plants  
\$15 manipulate insects to accomplish one of the most important plant/animal  
interactions in the biosphere – the pollination of flowering plants.

**April 26 Wildflowers of Spring with Peggy Rockwood**  
10:30AM–2:30PM Join this beloved SRJC botanist for a day of guided “wildflowering”  
\$15 across a diversity of habitats. Field guides and cameras are welcome.

**May 3 Nick’s Herpshop with Dr. Nick Geist**  
10:30AM–2:30PM Observe, catch, and identify reptiles and amphibians while learning  
\$15 about their ecological significance from a dynamic SSU biologist.

**May 17 Early Birding with Bryant & Diane Hichwa**  
7:30–10:30AM View Lazuli buntings and other neotropical migrants & residents at the  
\$15 height of the nesting season with two exceptional birders. Bring binoculars.

**May 17 Grasses, Native and Otherwise with Peter Warner**  
10:30AM–2:30PM Join this renowned field botanist for an in-depth field investigation of the  
\$15 major tribes of the family Poaceae. Keys provided. Bring a hand lens.

**June 14 Dragonfly Field Day with Kathy Biggs, author of *California Dragonflies***  
8:30AM–12:30PM Enjoy a summer morning observing, catching, and discussing all life  
\$15 stages of these captivating insects at peak season.

*Advanced registration is required – please call for last-minute registration information.  
Dress in layers and bring water and a lunch. Rain does **not** cancel.  
Workshops are appropriate for those 13 and older.*
