

Creating a Climate of Change

A series of public forums designed to inform and empower our local community about the effects of a changing climate.

Facilitated by Sonoma State University faculty and members of the community.

Presenters

Donald W. Aitken, Ph.D. is Senior Consulting Scientist for the Union of Concerned Scientists and a founder of the U.S.D.O.E's Western Regional Solar Energy Center. Dr. Aitken is a consultant, lecturer, and architectural and engineering workshop leader.

Daniel Kammen, Ph.D. is founding Director of the Renewable and Appropriate Energy Laboratory and Professor in the Energy and Resources Group and the Goldman School of Public Policy at UC Berkeley. His international work on renewable energy technologies focuses on clean energy options.

Paul Baer, is co-founder of EcoEquity and researches climate change science and policy with the Energy and Resources Group at UC Berkeley. He is co-author of, *Dead Heat; Global Justice and Global Warming*.

Future events: Mar 29, May 3, June 7

Global Climate Change Science, Policy & Ethics - Opening Lecture -

Cooperage Events Building
Friday, Feb 7 @ 7PM - 9:30PM

\$10 at the door

free admission for students
or with on-line registration at

www.Sonoma.edu/projects/climatechange

In this, the first of five seminars, we explore the science, policies and ethics of global climate change.

- What causes global warming?
- What are the potential impacts?
- What are the ethical concerns?
- What actions can be taken?
