

## **barspace.tv Internship**

Barspace is gearing up for a massive expansion in the next couple months. We're launching in 6 new cities; San Francisco, Chico, Sacramento, San Luis Obispo, Santa Barbara and San Diego.

That being said we're developing sales packets, videos and training guides. As well as setting up a network of account executives and install teams to follow their sales.

We're reaching out to Sonoma State for 2 interns to work closely with marketing team and office manager to facilitate this transition of growth. The internships are unpaid as we are a startup business. The duration is 4 months with an opportunity to extend it and a chance for possible employment. We have close ties with the SSU Business Dean and can definitely help you get school credit for your efforts.

We're looking for well organized, motivated, passionate people who work well in group settings and enjoy a good laugh while working in a fun, yet productive environment.

Please submit your resumes asap to set up an interview. We are looking for immediate start times.

Michael Deignan  
VP - Barspace Inc.
