

Guide to your term group project

Each group presents a 15 minute presentation and a report. (December 8 and 10)

Pick a topic from the list below.

Plan and divide up roles with group members.

Search to gather information, discuss, comprehend and then provide a 15 minute presentation.

The presentation should be audience friendly. Other groups will grade for your group's presentation.

You may apply whatever methods to help your presentation. (PowerPoint, pictures, hand-outs...)

Each group prepares a report about the topic presented.

The report should be at least 2 pages (A4). Use 12 font size and 1.5 line spacing.

In the report, indicate each member's role in the project.

The list of topics

- How would you teach a science class?
(Classroom setup, classroom, media, contents_ provide examples)
- Dark matter
- Time travel?
- UFO?
- Ghost?
- Extra Sensory Perception (ESP)
