

Peopling of the Americas

Basic Data Categories

Geological

- Dates on the episodes of glaciation
- Possible routes
- How do these dates and places match up with the early sites?

Archaeological

- Pre-Clovis
- Clovis
- Folsom

Linguistic and Biological

- Language groups
- Blood haploid groups
- Debates about rates of change in both these data sets
- Both represent datasets that would be affected by multiple migration waves

Multiple routes and datasets

Contemporary Socio-Political Contexts and Consequences
